# Checklist for Classroom Success

Hey Teachers! Here are some quick items for you to review and ensure your classroom is good to go!

1

Ensure you've selected the textbook aligned Learning Path for your classroom.

*Make adjustments or align to your pacing guides by navigating to Content>Learning Paths.*

2

Individualize Learning Paths for specific students from the Adaptive Practice dashboard.

*Example: Sara and Marc need to start with grade 2 standards but the rest of the class can start with grade 3.*

3

Become familiar with classroom settings!

*Most teachers leave these settings as defaulted, but if you would like to adjust them, head over to general settings.*

4

Ready to learn Best Practices from the ScootPad team and other awesome educators?

*Great! Follow our blog and stay on top of what's happening!*
